

# One Point Lesson: How to Review Shepherd Music School on Social Media

## Summary

Social media is really important, and we got a late start! However, you can help us to catch up by posting a brief review. It will take you about 2 minutes, tops. It's probably the smallest thing you can do to impact our school in a big way.

## Here's What to Do!

Please write a review on your choice of Google or Facebook. You don't have to do both.

### On Google:

- Search for Shepherd Music School Rogers AR. Don't click on our Website or any other links. Instead, glance to the right sidebar for our Google My Business summary.
- Scroll down to Reviews.
- Click the command button "Write a Review" in the box titled "Reviews".
- Click on the stars. Please add a sentence or two of commentary to add meaning to the rating. If it's tough to get started, look at what other people have said for ideas.

### On Facebook:

- Once you're in Facebook, type @ShepherdMS in the Facebook search bar.
- Click into our page. (Like us, too, while you're at it!)
- Find the rating box on our Shepherd Music School page, where it shows our current rating.

- Click on the stars, which brings up your rating box. Once you've rated us, please add a sentence or two of commentary to add meaning to the rating. If it's tough to get started, look at what other people have said for ideas.

Thank You!

We're in this together!
